WHEELER'S SPEECH

It May Figure in the House Discussions This Week.

Drastic Rule Adopted to Force the Revenue Bill Through This Week.

WASHINGTON NOTES OF INTEREST

Washington, Feb. 17.—The coming week promises to be one of unusual activity in the house of representatives. Today the war revenue reduction bill will be taken up, with two days for debate, and a stringent special rule bringing the bill to a vote at 3 p. m. on Tuesday, without intervening motion to recommmit or amend other than those of a verbal character proposed by the committee. When the debate proper begins there will hardly be more than three hours on each side. This time will be given to the members of the ways and means committee, who in turn will apportion it among their colleagues.

The passage of the bill is a foregone conclusion, and as the minority members as well as the majority favor it, the only difference being as to the amount of reduction and the extent to which tariff changes should go.

Aside from the tariff issue, it would be no surprise if the sensational speech of Representative Wheeler of Kentucky on Prince Henry's visit and other foreign matters figures in the discussion as much feeling has been aroused by the speech.

The Indian appropriation bill will be taken up on Wednesday with two other appropriation bills, the diplomatic and consular and the postoffice in reserve.

There are several important measures of general legislation now ready for consideration, including the anti-anarchy bill, and the Pacific cable bill. The intention, however, is not to consider these general measures so long as any appropriation bills remain unacted on.

ADMIRAL EVANS AS HOST
GERMAN ADMIRAL PROFUSE IN HIS PRAISES OF AMERICAN SHIPBUILDERS.

New York, Feb. 17.—Admiral von Baudissin, of the Hohenzollern, made his official call on Rear Admiral Robley D. Evans this afternoon, shortly after the latter had raised his flag on the battleship Illinois, off Tompkinsville. The German admiral had such a good time on the Illinois and was so interested in looking the great ship over that he stayed more than an hour, which is something quite unusual in the official calling line. The formalities of most official calls are over in a very few minutes, and the caller generally loses no time in taking his departure. In this case the German admiral threw formalities overboard and not only split a bottle of wine with Admiral Evans, but, after making a tour of the battleship from stem to stern, he made glad the heart of her commander by declaring that she was one of the finest products of marine engineering he had ever seen. A salute of thirteen guns, as a personal salute, was fired through the ship. The German admiral was the first American admiral that he had ever been

BIDDING FOR REFUGEES.

Chili's Offer to Defeated Boers Not Favored.

Texas and New Mexico Regarded as Better Adapted to the Vanquished Burgers.

London, Feb. 17.—Chili's proposal to the Boers to settle in Chili has led to some decision in London as to the possibility of a considerable migration of the burghers after the contest of the two republics is complete. No doubt the Boers will prefer to leave South Africa in view of the altered political conditions. Sentimental considerations such as might affect them would be outweighed, it is thought, by dislike to live under the rule of their conquerors.

Emigration to Chili, however, is not regarded as probable on a large scale. It is urged that the Boers, being Teutonic, would not get on well with the Latin-Indian type which holds the field in South America. The Chilean soil and climate, which resembles those of Switzerland, would not be congenial to the burghers.

In view of the fact that the Boers are ranchmen, rather than farmers, many of their friends here think that if they decide to leave their native land the best alternative would be Texas or New Mexico.

IMPORTANT CONFERENCE.

PRESIDENT CALLS IN SENATORS AND CONGRESSMEN TO DISCUSS IMPORTANT BUSINESS.

Washington, Feb. 17.—A very important conference was held in the cabinet room of the White house Saturday. At the president's request he was joined there shortly after 10 o'clock this morning by Senators Allison, Aldrich and Spooner, Speaker Henderson and Representatives Cannon and Groves and the conference lasted until a few minutes after 12.

It is something of a coincidence that those at the conference today were, with the exception of the president himself, and Senator Spooner, the same men who took part in the famous conference a few weeks prior to the Spanish war, which resulted in the definite conclusion that congress should appropriate \$50,000,000 to be placed at the disposal of the president to prepare for war. Not since that momentous occasion until today have the same men been formally summoned for a conference at the White House.

CLEANS THEM OUT

Gen. J. Franklin Bell Wipes Out Insurrectos in Batangas Province.

Realizing Terrors of War By Closing of Ports and Concentration of Natives.

DRASTIC MEASURES ARE EFFECTIVE

Manila, Feb. 17.—Gen. J. Franklin Bell has practically cleaned up the insurrection in Batangas province, the troops under his command having made a clean sweep of the district. It is not believed that all the insurgent arms have been captured or surrendered, but that a number of them have been taken by the insurgents to other provinces or safely hidden. The increase of robber bands in the provinces of Taybas and Cavite show the effects of the drastic measures adopted in Batangas and Laguna provinces. General Bell says the people of these latter provinces never realized the terrors of war until they practically experienced the hardships owing to the closing of the ports and the concentration of the natives in the towns.

General Bell believes that the insurgent leader Malvar is becoming exceedingly unpopular with the Filipinos and that when the natives cease to fear his vengeance, many will be found willing to betray him.

What has been said of Batangas province applies almost equally to Laguna.

CHEST CRUSHED.

Colored Employee of the Paducah Coal & Mining Co., Injured.

Caught Between Car and Shed and Badly But Not Fatally Injured.

Frank Meacham, a colored employee of the Paducah Coal and Mining company at the coal warehouse, corner of Second and Ohio streets, narrowly escaped death this morning while at work on the tracks.

The company has several cars in use at the warehouse to transfer the coal from the barges to the house and two negroes are used as the motive power to each car. The cars are small but hold many bushels of coal and one of these turned over on the man this morning about 8 o'clock and mashed him between the car and a small shed at the rear of the building. His chest was badly crushed and he could hardly draw a breath. His companions extricated him from between the car and shed and carried him to the office where Dr. Robertson was called. The injured man was taken to his home and his injuries dressed. He is in a serious condition but the injury is not considered fatal. Meacham did not lose consciousness.

PROCLAMATION

To all to whom these presents shall come, greeting!

Remembering with grateful pleasure the brilliant reception received last year, we again address our friends of Paducah, the commercial emporium of the Purchase, our much beloved city, that all may prepare for the carnival.

Beginning May 12, 1902 and continuing for six days.

That the carnival shall be observed with unusual state and pomp, and all endeavor to make it a season of joy to all who shall visit Paducah at that time.

The fame of these our festivities has spread throughout many lands, creating a desire among the people to witness the magnificent pageants we present and anticipate in the joys of our carnival; and we do, therefore, extend to all who dwell beyond the realms protected by our royal standard of purple and white a cordial invitation to visit our city during carnival week, promising them a hearty welcome, and that generous hospitality for which the people of Paducah are world-wide famous. We are joyed to know that health and peace have blessed our people throughout the state; that the crops are sufficient; that advancement and prosperity are evident in every branch of industry and commerce. We trust that each year we may increase the wealth and power of those whom we love so well, enabling them to celebrate with more eclat and more heartily enjoy an annual visit to Paducah.

The festivities of the carnival will be enhanced in brilliancy by the presence of the governor and his staff. Arrangements have been made with the Bostock Penari Mighty Midway Co., who managed the attractions of both the Buffalo and Charleston expositions to reproduce their attractions here.

The Grand Exalted Ruler of all Elks has further most graciously ordained that the best of weather shall prevail during the period of the carnival in our city thereby enabling everybody that may make pilgrimages hither from afar to enjoy their stay with unalloyed pleasure.

Given under my hand in our city the 5th day of February, 1902.

Second annual Carnival. By the Director General. L. A. LAGOMARSINO. Attest: H. P. NUNN, Sec.

IN THE LOCAL COURTS

Short Session of Police Court This Morning—Only Two Fines.

A False Swearing Case Probable—Two Men Swear the Opposite and Case Left Open.

NEWS FROM THE OTHER COURTS

There was a short session of police court this morning and only two judgments were handed down.

Thomas Wright who got drunk and behaved in a very boisterous manner, was fined \$3 and the trimmings.

Lucile Agnew, a proprietor of a Court street resort, was fined \$30 and costs for selling beer without a license. She was in court several days ago and in the course of the testimony it was found that she had been selling beer without a license.

The case against Jesse Tillman, colored, who is charged with having stolen three rabbits from Mrs. Sargeants, a huckster on market, Saturday, was partially heard and left open for a more thorough investigation, and to afford the defendant time to procure more witnesses. Tillman was arrested by a man named Torian who claims that he saw him steal the rabbits. Tillman swears that he was not on market and that he can prove an alibi. As the case stands Torian swears that he saw the negro steal the rabbits and Tillman swears that he was not on market. There is false swearing somewhere and it is the purpose of the court to ferret it out and punish the guilty one. Of late there have been many held over for this offense and the court intends to stop it.

The docket is large, and a great number of the cases were continued and the remainder set.

Today is the regular court day of Squire Barber. He called the docket and set several cases. There were several cases of minor importance tried but other than this no cases of importance were acted on.

COUNCIL MEETING.

Regular Session Tonight Will Have Important Questions Before It.

School Board Meets Tomorrow Night—Davis Suit to Come Up.

Tonight the council will meet in regular session, with much important business to transact. The public library question will again be taken up. It is probable that an ordinance will be drawn up to compel the second hand dealers and pawnbrokers to notify the local authorities whenever any goods are purchased from any one under any suspicious circumstances. In this way stolen articles will be easily found, and the thief caught. The second class city project will again come up for discussion.

UP IN ARMS.

Hackmen are Again Wrangling Over Alleged Rights at the Depot.

The City Council to Be Petitioned in the Matter.

NOTES OF THE CONVENTION

It seems that the local hackmen and the Illinois Central Railroad company will again have trouble over the depot question.

Several months ago the railroad company gave the Palmer Transfer company the right to work the trains exclusively and also set aside space at the depot for the company hacks. All the space set aside was used for several weeks by the company and finally the other hackmen began backing their vehicles in on the Palmer territory. An appeal was made to the railroad but it took no action in the matter until Saturday when space, 150 feet in length and extending from the depot platform to the car tracks, was alleged to have been leased the transfer company. That amount of ground was laid off and set aside for the Palmer company but as the other hackmen had not been shown the lease papers they refused to keep off and backed their hacks in as they have been doing for the past several months. The outside hackmen think that they are not being treated right by the company and claim that they have consulted legal authority and find that the railroad company can not lease this property as it is a public highway. They will shortly lay the matter before the city council, if the company still continues to attempt to keep them off. There was a little trouble Saturday when the ground was laid off but the hackmen have been quiet today and it is not known what will be done about the matter. Today at noon laborers were put to work fencing in the Palmer ground and the work will have been finished by night. The other hackmen have been notified of the lease and as soon as the work of fencing in the space is completed the lease will be filed for record in the county clerk's office. Then the outside hackmen, if they continue to encroach on the Palmer ground, will be libelled for trespass.

The exact outcome of the matter remains to be seen.

NEW GAUGER.

NEW GAUGER ASSIGNED TO THIS TERRITORY IN THE PLACE OF MR. E. L. HENDRICKS.

Mr. J. W. Furnish, of Owensboro, has been assigned to this territory temporarily to fill the vacancy caused by Mr. E. L. Hendrick's vacation. Mr. Hendricks resigned several days ago to go to Europe with his daughters but his resignation was not accepted. He was told to consider himself on a vacation and will therefore not be out of the service. He has been the gauger here for several years but was once transferred to another territory.

He left at noon for Madisonville and from there he will go with his daughters, starting on the 26th, for Europe. Mr. Furnish will arrive tonight or tomorrow.

EVERYTHING READY

All the Arrangements for the Great Y. M. C. A. Convention This Week.

Committee Will Meet Every Night to Discuss Problems That Arise and Look After Details.

NOTES OF THE CONVENTION

The committee in charge of the arrangements for the Y. M. C. A. convention which convenes Thursday, is working hard to get everything ready for the opening. Mr. Sam Hubbard is chairman of the committee, and he is about the busiest man in the city.

Secretary Escott said today: "The people of Paducah probably do not appreciate what a big thing this convention will be. We shall have men in attendance at this convention who have never attended a like convention before. The most prominent men in all the neighboring towns, Fulton, Mayfield, Murray, Benton and nearby, men who have never attended previous Y. M. C. A. conventions, have signified their intention of coming, and with the prominent business and professional men, enthusiastic Y. M. C. A. workers, from the larger cities, will make a delegation that will be the largest that ever attended one of our conventions. The people of Paducah are taking a great interest in the convention, but we wish to call their attention to the fact that we need all the assistance that we can get to entertain the people who are coming. It will be a large crowd. We have accommodations for many, yet still not enough, and we would ask that those who could take care of a few delegates for us kindly let us know. Let it not be said that we did not properly entertain our guests."

The meeting at Fulton yesterday was a success in every way, and the attendance was better than expected. There will probably be a large delegation from there to attend the convention. Messrs. John Lake and W. W. Brockman of Louisville had charge of the meeting.

Mr. Michel remained over Sunday and met with the men at the association yesterday afternoon. There was a good attendance, and the convention program and all the arrangements were thoroughly discussed.

Mr. Don O. Shelton of New York, a prominent religious worker who will be here to assist in the convention, will conduct a big union prayer meeting at the First Christian church.

A boys' meeting at the association yesterday afternoon. Secretary Escott conducted the meeting, and the attendance was good.

There will be an important meeting of the committee tonight, and the entire work will be discussed. There will be meetings of the committee every night this week until the first day of the convention.

DAILY THOUGHT.

"Be not afraid of life; be afraid only of whatever belittles or narrows life."

THE VOTING SYSTEM.

It may be that the politicians at Frankfort desire a restoration of the viva voce manner of voting, likewise the Goebelites and those who are behind them, but in considering the proposed amendment to have the question submitted to a vote of the people, it will be well to find out just how sincerely these politicians want such an amendment. If the Democrats desire to return to the viva voce system of voting, then there must be some advantage in sight for them—some greater advantage than they have in a secret ballot with an unfair count. To change them with desiring to return to the old way because it is fair would be to charge any of the Goebel gang with desiring to be fair. As it stands at present, the Democrats can still count out any system they choose, and this is about all that is necessary—unless they can find some unfair means, and that is the viva voce way of doing it.

It might be said here that had as the Goebel law elections are in Kentucky, there are few who desire to return to the old viva voce way. The merchant does not want it, because he does not desire to have his business jeopardized by his vote. The workman or clerk or other employee does not want it, because he would then be at the mercy of his employer, and would have to vote as he dictated. He would no longer control his own vote. He would become a mere tool.

The Democratic politicians and newspapers may want this viva voce system, but they will never get it, for it would require a constitutional amendment to return to the antiquated way of voting, and the people will never sanction it by their vote.

Yet the Goebelite legislature may pass the bill—if it passes any bill. It has consumed over half of its allotted time, and there have been only two bills passed, with six hundred and over to work on. If the Goebelite legislature passes the viva voce bill, however, it will not be through a desire to get a fair way to vote. The Goebelites have never been imbued with the laudable desire to do anything so out of keeping with their true character. And if they are satisfied with the present election methods, which they ought to be, for the Republicans are not, and are supporting this viva voce business as a bluff, what is their game? Perhaps it is simply to have a vote taken on whether the people are satisfied with the present way of voting and the present Democratic method of counting it, or whether they want some other way. If the proposition to amend the charter by going back to the viva voce system is carried which it probably wouldn't be, Democrats would count out just the same, and then accomplish their object of claiming that Goebelism has been vindicated, and the people by their votes have decided

Dr. Dillon, of the Illinois Central hospital, received a telegram from St. Charles, Ky., yesterday saying that the wife of Mr. John Menser, a patient in the hospital, had suddenly died and to send her husband home to take charge of the remains.

Menser was not apprised of the fact that his wife had died but was told she was seriously ill. He returned home this morning.

Menser was struck by an engine at St. Charles about one week ago and had been in a serious condition. He has improved sufficiently to return home however.

CURLEY'S FUNERAL.

The fine bull dog of Mr. Al Wicks, of the Palmer house, was electrocuted Saturday in a peculiar manner. The animal was chasing a cat about the rear of the building when the pincer jumped upon the motor of the elevator, used in hoisting baggage in the rear of the hotel, the dog followed. As the canine jumped on the motor the elevator was started and the animal received a shock that killed it instantly. It had the reputation of being the best fighter in the city and was highly prized by its owner.

The funeral of "Curley," the city hall mascot, was held in the court room of the city hall yesterday afternoon the services being conducted by ex-Marshall James Collins. There was good attendance of the police officers and several city officials. "Curley" was shot Thursday as he was nearly dead and had become a nuisance about the hall. The city hall bell was tolled during the services.

Mr. Will Yancy, of the county, is mourning the loss of his fine \$100 bird dog which died last week.

LIMB BROKEN.

Rachel Johnson, colored, at Seventh and Ohio streets, met with a serious accident Saturday night at Sixth and Broadway, and is laid up with a badly fractured leg as a result.

She was crossing Broadway, and stepped into a small depression of the ground which was hidden by the snow. In attempting to catch herself and prevent a fall, her foot slipped and she was thrown to the ground, alighting in such a manner as to fracture her right limb just above the ankle. Dr. Dukey was summoned and dressed the injured member, and the woman was taken to her home.

CANCER

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated now the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the skin, and causing the most intense suffering. I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remained but a slight scar. I feel that I owe my life to S. S. S."

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

POEM OF "KENTUCKY."

ROLLING BIT OF VERSE READ AT THE LEGISLATIVE BANQUET IN LEXINGTON.

The Lexington papers say that Judge James H. Mulligan made a decided hit at the legislative banquet in that city last week by reading the following original poem:

IN KENTUCKY.

The moonlight is the softest In Kentucky.

Summer's days come oftener In Kentucky.

Friendship is the strongest, Love's fires glow the longest, Yet a wrong is always wrongest In Kentucky.

The sunshine's ever brightest In Kentucky.

The breezes whisper lightest In Kentucky.

Plain girls are the fewest, Maidens' eyes are the bluest, Their little hearts are trueest In Kentucky.

Life's burdens bear the lightest In Kentucky.

The home fires burn the brightest In Kentucky.

While the players are the keenest, Cards come out the meanest, The pocket empties cleanest In Kentucky.

Orators are the grandest In Kentucky.

Officials are the blandest In Kentucky.

Boys are the fleetest, Danger ever highest, Taxes are the highest In Kentucky.

The bluegrass waves the bluest In Kentucky.

Yet, blue bloods are the fewest (?) In Kentucky.

Moonshine is the clearest— By no means of the dearest— And yet it acts the queerest In Kentucky.

The dove's notes are the saddest In Kentucky.

The streams dance on the gladdest In Kentucky.

Hip pockets are the thickest, Pistol hands the slickest, Cylinders turn quickest In Kentucky.

Song birds are the sweetest In Kentucky.

Thoroughbreds the fleetest In Kentucky.

The mountains tower proudest, Thunder peals the loudest, The landscape is the grandest—and Politics—the damndest In Kentucky.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time.

SMALL WRECK.

TRAINS DELAYED SEVERAL HOURS YESTERDAY—NO ONE INJURED.

There was a small wreck on the Illinois Central road yesterday at 10 o'clock 500 yards north of Mayfield.

The first section of freight train No. 153, pulled by engine Nos. 348 and No. 19, jumped the track and wrecked nine freight cars. A spreading of the rails caused the accident. No one was injured. The wrecker was sent out from Paducah and in about three hours and a half had the wreck cleared. The main line was blocked and the noon passenger No. 102 was delayed several hours, arriving here at 3 o'clock.

The Wilbur Opera company was delayed and did not get away until the arrival of the train although a special train had been made up and was on the point of starting when the train arrived. The damage to the company is slight. The cars suffered much damage but the engine was not damaged at all.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates and cures quickly. Careful mothers keep it in the house.

"Yes, my father is at home this evening." Where is he?

Observations

...at Random

'Squire Barber used to be a practical joker, and in several instances paid dearly for his jokes, or rather his father paid dearly for them. He used to be in the tobacco business, and had a negro working for him who was very much afraid of spiders and other insects of a poisonous nature. The darky was down in a hoghead of tobacco packing it for shipment one day, when 'Squire Barber came up and hung an imitation spider down in front of the darky's face. The man in the hoghead gave one scream and jumped up, striking his head against the big screw above that is used in packing the leaf in the hoghead. He remained unconscious for over an hour, and scared the joker nearly out of his wits.

Another joke, and one that his father had to stand for, was perpetrated on a peddler. The peddler had a good horse, and would come to town and put up for a week's stay. The boys did not like him, and got their heads, together to plan his undoing. They cut off the name and tail of the peddler's horse, and then, not contented with this, 'Squire Barber procured some paint and decorated the animal to resemble a zebra. The paint killed the horse, and the 'Squire's father had to stand the cost. One look at the dignified magistrate now would never suspect that he was such an incorrigible joker.

A small boy who is a regular spectator at the Kentucky, and is only thirteen years old, and a son of a prominent official, caused his father much fright several nights ago by his antics. The little fellow has seen a great many of the finer attractions that have come to the city this season, and has been seized by the stage fever. Several nights ago, when a heavy tragedy show was produced here, the little fellow was much struck with one of the characters, a heavy villain and sword fighter, and the character seemed to run through his head continuously. At home several nights later his father was standing by the mantel reading a newspaper and smoking when his son entered. The boy stood at the door for a short time crouched in a threatening attitude, and unsuspiciously wondering why he did not come nearer the fire looked around to see what had happened. As soon as the father had turned his head the boy made a cat-like spring, and in a tone of profound pathos, which increased to an ominous growl, informed the old man that his "time had come."

"Now that we are at last face to face, I say to you, your time has come, and you must prepare for the worst!" And he lunged. Then he rushed on his father.

By this time the "old gent" had concluded that the safest thing to do was to retreat, and therefore retreated to the corner of the room, his son following all the time. When the performance was finished and the old gentleman's nerves calmed, he picked the

youngster up and applauded very enthusiastically on the place where he was wont to sit.

Tests which officials of the Illinois Central say are highly satisfactory have been made in telephoning from trains by using the telegraph wires. The tests have resulted in the belief that when the company installs its two wire telephone system it will be possible to telephone from a train to every office on the entire system. The last test was made six miles from Champaign, and communication was established with the dispatchers at Kankakee, sixty miles away. Connection is made with the wires by hooking a rod over the line, the former having connection with a receiver in the engine cab and the telephone current being grounded through the engine by means of individual condensers. The advantage of telephoning from trains in cases of emergency is great.

BOWLING TOURNAMENT

LOUISVILLE WANTS PADUCAH TO BE REPRESENTED IN BIG TOURNAMENT.

Colonel J. H. Haager, of Louisville, former chief of police at that place was in the city Saturday en route to his home after a sojourn at Hot Springs.

He stopped over with the intention of interesting the local bowlers in a big bowling tournament which will probably be held in Louisville. His brother, Mr. Dan Haager, of Louisville, is the proprietor of a big bowling alley there. The tournament will be attended by bowlers from Lexington, Covington, Newport, Frankfort, Owensboro, Memphis and Cairo and probably Paducah. Paducah has a good reputation for bowlers and will probably send a delegation to the tournament.

MURDER IN TEXAS.

MARSHALL COUNTY BOY MURDERED IN TEXAS.

Henry Ratcliffe, a farmer of Oakes, has received information that his nephew, Albert Ratcliffe, age 24 years, formerly of near Seale, Marshall county, but now of near Corsicana, Tex., has been murdered by a man named Joe Goodman.

The murder was committed with a pocket knife which was plunged into young Ratcliffe's heart. The crime was committed after the murdered man had been run several hundred yards, the result of a quarrel between the two men who were at the time hitching up a horse in the livery stable where Ratcliffe was employed. Goodman, it is claimed, was drinking when he committed the deed. The young man and his family have been residing in Texas for some time.

SHIP CARPENTERS MEET.

The Ship Carpenters' union will have a big time tonight at their hall on South Third street over the Griffith and Garrison saloon. Four new applicants will be initiated into the union and the members are looking forward to a fine time. There will be a regular program and a social session held.

Balky Stomachs.

They Show No Structural Defects, Exhibit No Evidence of Real Disease—Because they Are Fagged, Lazy or Contrary, They Won't Work.

Food lies in them for hours, decomposing, rotting, fermenting, forming noxious compounds, that poison the system, and convert those organs that have to eliminate it, instead of nutritive chyle that will enrich the blood so it may feed the various tissues and structures of the body.

When the stomach won't work the whole body suffers as every tissue or structure of the body depends on the stomach for nourishment and renewal. If the stomach is weak, inactive and unable to properly digest food it not only subjects the body to a state of chronic semi-starvation or habitually half-fed condition that weakens it and renders it less productive of accomplishment and less resistant to disease, but it allows the absorption of half-digested, rotting material that is a positive poison to it; and taxes the eliminative organs to expel it from the body. Thus it will be seen that the inconvenience and distress, the disturbed rest, the horrors of insomnia, the nervous or impaired digestion, the most insignificant part of indigestion and that real danger lurks behind the condition.

Few people seem to realize the dangers of weak, defective and disordered digestion. Health reports do not give it as cause of death because some other disease sets in to work destructive changes, only made possible by the imperfect digestion, and the deaths credited to them.

There are many medicines on the market intended to correct and improve perverted or impaired digestion, but none are so safe, so economical, so convenient, so effective, so satisfactory, so popular as Stuart's Dyspepsia Tablets. Whether the dyspepsia is of long standing or is only a case of temporary indigestion, they feel and take on beautiful activity, their regular use for a time will cure all forms of gastric insufficiency so that "good digestion will wait on appetite and health on both."

By promoting perfect digestion all tissues and structures are better fed and take on beautiful activity, the blood becomes rich, the flesh sound and firm, the nerves strong, the eyes bright, the skin clear, the mind alert and cheerful and one begins to feel the lust of life—the joy of mere living.

Mr. Thomas Seale, Mayfield, Calif., says: "Have used and recommended Stuart's Tablets because there is nothing like them to keep the stomach tight."

Mr. E. H. Davis, of Hampton, Va., says: "I doctored five years for dyspepsia, but in two months I got more benefit from Stuart's Dyspepsia Tablets than in five years of the doctors' treatment."

Phil Brooks, Detroit, Mich., says:

Benefit of the Faith Cure. While we may frown upon and smile at the undue zeal of the faith-cure propaganda, we may as well acknowledge that they have had or are taking a proper place in the social evolution, and that the world may yet have to thank them for having loosened the hold of the drug cure upon mankind when it was at its worst stage.—Washington Post.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. J. C. GILBERT.

"Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never before. I have. I gladly recommend them."

Mrs. Lydia Bartram, of Assaria, Mich., writes: "I suffered from stomach trouble for ten years and five different doctors gave me only temporary relief. A Mr. R. R. Page advised me to try Stuart's Dyspepsia Tablets and four boxes did me more permanent benefit than all the doctors' medicines that I have ever taken."

Rev. J. R. Hoag, of Wynore, Nebraska, writes: "For six years I have been troubled with dyspepsia. Last fall I became very much alarmed at some symptoms of heart trouble and came to believe there was a sympathetic relation between the two diseases, or rather, that the stomach trouble was the heart disturbance. I hit upon Stuart's Dyspepsia Tablets for a remedy and invested a dollar and a half for three boxes which lasted me three months and I can eat any kind of food I want and have a good vigorous appetite. Although I am seventy years old, I now feel perfectly well and without being requested by anyone I made this statement as a compliment to the virtues of Stuart's Dyspepsia Tablets."

Henry Kirkpatrick, of Lawrence, Mass., says: "Men and women whose occupation precludes an active outdoor life should make it a daily practice to use Stuart's Dyspepsia Tablets after meals. I have done so myself and I know positively that I owe my present health and vigor to their daily use. From the time I was 22 when I graduated from school with broken health from overwork until I was 34, I scarcely knew what it was to be free from stomach weakness. I had no appetite whatever for breakfast and very little for any other meal. I had acidity and heartburn nearly every day and sometimes was alarmed by irregularity and palpitation of the heart, but all this gradually disappeared after I began using Stuart's Dyspepsia Tablets and I can eat my meals with relish and satisfaction which I had not known since I was a growing boy."

If your stomach won't work, try Stuart's Dyspepsia Tablets and be convinced of their merits. All druggists sell them at 50c a box. Once use them and you will become their advocate and friend.

Caution in Handling Fishes. In handling fishes it requires a certain amount of care to avoid being cut by the fins, which in some species are to some extent poisonous. The Key West fisherman has an unbounded horror of being bitten by almost any kind of fish, as he fears blood poisoning will set in, although according to those who have studied the question, there seems to be very little foundation for this fear.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. J. C. GILBERT.

A THOUSAND DOLLARS

THROWN AWAY.

Mr. W. W. Baker of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low, and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks to this great remedy I saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar, and would ask those afflicted to try it."

HONORS WERE EASY.

Rare Specimens of Refined Repartee That Got.

"There are fellows who dislike at first sight and feel like saying something mean to," remarked the young man with the gigantic shirt collar as a troubled look crossed his face. "I know such a fellow—meet him on the car almost every day—and for the last year we have been saying sarcastic things whenever opportunity afforded. I've been looking for a chance to hurt him real bad by making him feel his smallness, and I thought I had got it the other day."

"I got a stain on my winter overcoat that wouldn't come out, and so I took it to a second-hand dealer. He offered me a pair of trousers in exchange and I took them and three days later I met my enemy on a crowded car. My heart gave a thump as I saw he had my overcoat on and was putting on a heap of style. I got good and ready and then told him that it was useless to fool with that stain, as I used to own that coat and knew all about it. He turned as white as death for a minute and I thought I had him, but he made a quick rally and replied: "Many thanks, sir, and I ought to tell you about those trousers. I wore 'em for two years and they always shrank two inches every time I had 'em re-dyed!"

"And what followed?" was asked, says the Detroit Free Press, as the young man paused. "He asked in a pathetic voice, 'I sneaked out of the front door and he out of the rear, and if either of us knows who's ahead we ain't saying anything about it!'"

A NIGHT ALARM.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell, and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier of Manassas, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar; the first dose gave quick relief, and saved her life." Refuse substitutes.

J. C. GILBERT.

A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcolm, of Cherokee, Kan. "When two years old she was taken with stomach and bowel trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced incurable. A friend advised

Dr. Miles' Nervine

and after giving it a few days she began to improve and finally fully recovered. She is now past five years of age and the very picture of health."

If ten recruits can be secured here every month the recruiting office which has been in operation since the first of the year, will be made permanent. Last month there were about 30 recruits secured but so far this month the number has not been so large. Sergeant Wiggington has charge of the office and will work hard for its permanency.

Dr. Will Wayne slipped and fell Saturday evening on South Fourth street, while going home to supper and sprained his left knee. Dr. Wayne sprained the same knee a few weeks ago, and had just recovered sufficiently to walk without crutches when the second accident occurred. Dr. P. H. Stewart dressed the injury.

The local police have been instructed to arrest Howard Maxwell, of Crawfordville, who has run away from home. The boy was last heard from in Tennessee and was with a gang of tramps. A liberal reward is offered for his return to his father.

The Sun would call attention to its puzzle pictures on the third page. This feature has proven one of the most popular that a newspaper ever inaugurated and it is the intention to have one in The Sun every day. The pictures are especially entertaining for children.

"The Minister's Son," which comes to The Kentucky Thursday night, is a story pure and simple, a pastoral play. It is one of the prettiest stories told on the stage—"The type of 'Way Down East' and 'The Old Homestead'." The critics have nothing but words of praise for it.

A splendid audience greeted Mr. Fowler at Tenth street Christian church last night, and listened with much interest to his very interesting sermon. Preaching tonight; subject, "Expansion in Religion." Services begin at 7:30 sharp; everybody invited.

FULL OF "RED EYE."

Yesterday two small boys, not over eighteen years of age, created much excitement at the I. C. depot as the train bearing the Wilbur Opera company away was being made up.

The boys had been going with the chorus girls, and to make an impression on them and to prove that they were "true Kentuckians," procured a pint bottle of whiskey and proceeded to drink the liquor. Shortly after that they became boisterous, and finally became too drunk to talk. Friends carried them home.

OFFICER EVITT'S WELL.

Officer Tom Evitts will be about again in a few days. The physicians dismissed him this morning as cured, but he will not be out for several days. AT THE CHURCHES YESTERDAY

COMING UNION SERVICE AND STATE Y. M. C. A. MEETING ABSORBING INTEREST—CHURCH NOTES.

At many of the churches yesterday the sermons were along the line of the coming union revival service to begin next week in the Broadway Methodist church under the leadership of Rev. W. E. Biederwolf, the distinguished Indiana evangelist, assisted by Harry Maxwell, the famous singer. The local pastors are all giving their earnest thought and prayer to this meeting from which much is hoped, and are endeavoring to bring their congregations to a full realization of the importance of it. Many strong words of inspiration and courage were spoken from the various pulpits yesterday.

At two of the churches there will be entertaining lectures delivered to-morrow evening. Rev. E. S. Harris of Clinton, Ky., will lecture on "The Woman and the Broom" at the Trumble street Methodist church. At the Third street Methodist church Dr. G. W. Briggs will deliver his popular lecture on "The American Girl." These ministers and churches seem to "have it in" for the feminine sex, so to speak, tomorrow night.

Mr. F. J. Michel, assistant Y. M. C. A. secretary of Kentucky made a glowing little talk at the Broadway Methodist church yesterday morning in the interest of the coming state convention. He is on fire with enthusiasm and aroused in his hearers much interest. Dr. Briggs followed with a strong sermon on "Courage."

There will be a union prayer meeting service of the various churches at the First Christian church on Wednesday evening, instead of the usual separate services. This is done in the interest of the coming meeting.

Elder S. F. Fowler of Murray, Ky., began a meeting at the Tenth street Christian church yesterday, which will continue through the week. He is an eloquent speaker and will attract many.

Both Rev. J. C. Reid and Rev. G. W. Perryman preached special sermons to men at their night services which were heard with deep interest.

THE CHARITY CONCERT.

TONIGHT AT CUMBERLAND PRESBYTERIAN CHURCH—A PLEASING PROGRAM.

The arrangements for the charity concert have all been completed, and it will take place as announced in the auditorium of the Cumberland Presbyterian church, corner Court and Sixth streets, this evening. Some time since, the Musical club offered their services to the Civic Federation in the interest of their Benevolent work in the city. No pains have been spared to make the occasion a success, both the Musical club and the ladies of the Civic Federation, have labored untiringly. The electric lights caused a postponement of the original date, but everything should be all the better for that as more time has been secured. The calls for help during this severe weather have been galore, and money is needed to meet these demands. It is hoped that a large audience will be out this evening, and a good fund for the charitable work be secured. The price of admission is only 25 cents, which is very small when the following fine program rendered by some of Paducah's most popular and representative musical talent is considered, as well as the greatness of the cause and the urgency of the needs:

Overture, "Der Freischutz." Weber—Mrs. W. T. Miller, Miss Virginia Lesh, Messrs. Dold and Gilbert.

Chorus, "Hark among the thrilling horn." Rossini—Musical club.

Quartet for ladies' voices. Foster—Mrs. H. C. Overby, Misses Jessie Nash, Virginia Lesh and Birlie Nash.

Duo for two pianos. Rheinberger—Messrs. W. G. Dold and Harry Gilbert.

Trilo. "Madre Del Sommo Amore." Campana—Miss Addie Hart, Messrs. Will Minnick and Emmett Bagby.

Overture, Euryanthe. Weber.—Mrs. W. T. Miller, Miss Virginia Lesh, Messrs. Dold and Gilbert.

Solo, "Golden Light." Bizet—Miss Addie Hart, with Cello Obligo, by Mr. Albert Baum.

Quartet, "Trust in the Lord." Handel—Messrs. Chastaine, Dold, Bagby and Greene.

Chorus, Gallia. Gounod—Musical club.

FITZ AND JEFF.

New York, Feb. 17.—Robert Fitzsimmons and James Jeffries signed articles here today to meet in a twenty round glove contest on some date between May 10 and 20 for the championship of the world. The contest is to be before the club offering purse. The winner is to be champion and the loser 40.

AT "THE KENTUCKY."

When seen by a Sun scribe at The Kentucky, Mr. Edward A. Braden, representative of the Castle Square Opera Co., had just completed final arrangements with Manager English for the appearance of "King Dodo" at the Kentucky next Monday night. Mr. Braden said: "While this is the first visit to your city, I trust that 'King Dodo' is sufficiently well known to insure a crowded house, as I am confident that we will give you an evening's entertainment in that comedy opera that will make our trade mark. 'Castle Square Opera company' a guarantee of excellency in your city. 'I hope,' continued Mr. Braden, 'that your people will like 'King Dodo,' so that it will be an inducement to visit your city with our several attractions each season. I'm sure they will, as the opera will be given a perfect presentation, as complete in every detail as it was given during the five months' run in Chicago. An essential factor to the perfect presentation of opera, either light or grand, is the orchestra, and we carry our own."

NOTES OF THE RAILROADS

Mr. L. A. Washington, of the Gulf and Ship Island road of Mississippi will return home tomorrow morning, after a visit to relatives here.

Mr. W. H. V. Rosing, the assistant superintendent of machinery of the I. C. arrived in the city from Chicago Saturday afternoon late, and remained over on Sunday, leaving last evening for Fulton, and then to his home in Chicago. He was here on business with Master Mechanic Barton.

A PUBLIC CONFESSION.

Truth Concerning Famous Hen That Lays Duck's Eggs.

"I think it is time that the public hears the truth concerning Grumpy and his famous hen that lays duck's eggs," said the suburbanite. "Last spring some one presented him with a nondescript rooster and hen. Soon after they had arrived he called me over to pass upon their pedigree, and I gravely pronounced them a fine-looking pair of Irish setters. He took this so seriously that I was encouraged to carry out a plan that was going to save the eggs that the hen laid, and when she had completed her litter to set her on them. Now about that time I was given a setting of duck's eggs, something that I had no earthly use for, and so resolved to amuse myself at Grumpy's expense. One day, hearing the hen cackle, I visited the henhouse and exchanged the egg that I found there for one of my duck's eggs. I kept this up till the hen had laid her litter, being aided in my scheme by Grumpy being away from home in the daytime. When the hen showed a desire to set he put her on the duck's eggs and awaited developments. To say that I was surprised when his eggs hatched out into ducks does not express the situation. Since then he has been telling every one who would listen about his famous hen that lays duck's eggs, as well as writing to all the poultry journals concerning the wonderful freak of nature, although I am not aware that any of the papers printed his claims. He has come within an ace of having three different fights with his neighbors who doubted his story. And I hope that this statement will clear up the situation and allow our little settlement to assume its wonted quietness."—Detroit Free Press.

BUCKEYE ANIMADVERSIONS

In an Indianapolis Plan to Make Life Sweeter.

The young women of the Indianapolis telephone exchange are to be given the benefits of voice culture. A prominent elocutionist has been engaged, and all the sharp voices will be filed down, and all the there is any dignity and sweetness in a voice it will be drawn to the surface. It is a nice scheme, but it will take some time. The average Hoosier voice is far from being of the liquid velvet order, and the elocutionary improver will find his hands full for some time to come. Of course the hours for vocal practice will have to be snatched from the regular hours of duty, and the Indianapolis subscriber who calls up "exchange" may be expected at any time to hear somebody shrieking: "I am not mad! I am not mad! A good deal startled, he will probably hastily remark: 'Hello, central; you have given me the insane asylum.' And then the girl will explain that she's only getting letter perfect in "The Maniac." And very likely some other subscriber will be told that the curfew shall not ring tonight, and perhaps he'll vigorously ask the curfew to ring off. And may be an incensed patron of the line who earnestly inquires what the girl means by not answering his call will be told to "wake and call me early, call me early, mother, dear." In short, there'll be a good deal doing in that Indianapolis call shop before all the voices that need it are cultured into proper vocal shape.—Cleveland Plain Dealer.

Clerical Familiarity.

When Frederick Temple, now archbishop of Canterbury, was bishop of London, he was one day examining a class of theological students on the subject of parish calls. As an object lesson, he said that he would go into the next room and receive one of their number as visiting minister. As the students drew lots for the ordeal, the choice fell upon a young Irishman, who entered the chamber ahead of the class to find Dr. Temple prone upon the sofa, and like Hazeniah, his Irish up, approached the rector, laid his hand upon his shoulder and said, "Ah, Frederick, Frederick, 'nk again!'"—New York Trib-

QUEER PATENT LAWS.

SOME PECULIARITIES NOTED IN THE AMERICAN SYSTEM.

Man May Register Another's Name as a Trademark, But Not His Own—Reason Given for the Decision—Surname Can Not Be Owned.

Ought a man to have a better right to the name of some one else than to his own name in his own business? This is the question which, according to the Washington Times, a good many manufacturers and solicitors are trying to answer. The Patent Office now allows a man to register some other man's name as a trade-mark, but not his own.

Trade-marks are registered under the acts of 1881 and 1882. The first act had a clause providing that the commissioner of patents should not register a trade-mark which was "merely the name of an applicant."

Many surnames had become irrevocably attached to certain articles of manufacture. Therefore, to prevent any injustice, congress the following year passed a short act providing that nothing in the preceding act should "prevent the registration of any lawful trade-mark rightfully used before the passage of" the former act. Therefore, from almost the beginning of the registration of trade-marks up to the middle of 1898 the Patent Office at Washington allowed the registration of the goods of a certain person, so that they had become associated with the goods of a certain person.

As late as the first half of 1898 seventeen surnames were registered as trade-marks by applicants of the same name. Then the policy of the patent office suddenly changed; the letter of the main act of congress was stuck to like grim death, but the spirit of the supplemental act was entirely crushed out of it.

The reason at the base of the principle that a surname must not be used as a trade-mark is that a surname cannot be the exclusive property of any one person as against all others who own the name.
